Maxibit Satellite

Combine with other Maxibit systems using seamless graphics.

Locking infills ensure Satellite remains sturdy at all times.

Assemble an optional number of sections for varying designs.

Compact and lightweight, system expands into place.

Maxibit Satellite. – a pillar of strength.

A compact tower that travels anywhere, the portable Satellite Tower is designed to deliver your message from all angles, making it easy to get noticed wherever it is used. Its strong and sturdy stance commands attention, while its elegant appearance invites admiration.

Attractive from every angle.

Satellite looks great from top to bottom, side to side. It handles itself well in any room and is ready to make a statement at a moment's notice. Put Satellite to the test and see for yourself – you will be pleased with the results.

Varying heights and changeable outfits.

Satellite comes in a three-section tower or a four-section hi-rise to meet your specific communication needs. And, with removable seamless graphic panels, it can be dressed to fit each occasion.

Maxibit Satellite.

Maxibit | Satellite

Satellite is based on the pillar, one of the most widely used architectural elements in history. Its portable features, interchangeable graphics and ability to be used alone or in combination with other Maxibit systems, makes it an attractive product for today's savvy marketer.

Assembles in minutes.

Satellite goes up in minutes and comes down just as fast. Expand the lightweight frames, lock them into place and connect the panels. When you are done, take it down and pack it away in the Satellite Nylon Carrying Case – another example of power through simplicity.
